

Northern States Power (Xcel Energy) Residential Fuel Cost Adjustments

About the Fuel Cost Adjustment

- ***The difference between the Total Fuel Cost and the Fuel Cost Adjustment is the amount of fuel costs included in the base rate. Beginning January, 2009, the amount of fuel costs included in the base cost was reduced from \$0.010920 to zero.**
- **The Total Fuel Cost reflects the cost of fuel to produce electricity and the cost to purchase electricity on the market.**
- **Utilities are allowed to pass the cost of fuel onto the consumer and they do not make a profit from it.**
- **The Fuel Cost Adjustment appears on your bill each month and is applied to each kilowatt-hour of electricity consumed.**
